  README.md; `# GitHub Pages Starter

```

This is a plain HTML/CSS/JS starter project you can publish for free using GitHub Pages.

Files

- index.html
- style.css
- script.js

How to publish

1. Create a new **public** GitHub repository
2. Upload all files to the repository root
3. Open **Settings**
4. Click **Pages**
5. Under **Build and deployment**, choose **Deploy from a branch**
6. Select the **main** branch and **/(root)** folder
7. Click **Save**

Live URL

GitHub will give you a URL like:

<https://your-username.github.io/repository-name/>

Notes

- Make sure the homepage file is named ****index.html****
- Keep file names exactly the same unless you also update the links in the HTML`

```
};
